

IBM Cloud Services

Project Title: Smart Solutions for Railways

Team ID: PNT2022TMID18625

Date: 15 November 2022

The screenshot displays the IBM Cloud Dashboard. At the top, the 'Dashboard' title is followed by links for 'Edit dashboard', 'Upgrade account', and a 'Create resource' button. Below this, a 'For you' section offers several guided paths: 'Build' (tutorials), 'Unlock the entire catalog' (Kubernetes upgrade), 'Explore IBM Cloud Shell' (command-driven approach), 'Use Cloud Foundry' (application deployment), 'Create a Kubernetes cluster' (automation), and 'Deploy on Kubernetes' (cluster management). Each path includes a 'Recommended' or 'Getting started' badge and an estimated time. The bottom row features four widgets: 'News' (with links to SLSA support, WebSphere support, and lifecycle services), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status' (showing a world map). The Windows taskbar at the bottom shows the search bar, application icons, and system status (30°C, 16:54, 15-11-2022).
